INTERNATIONAL

Welcome to Indon International!

Indon is a producer of custom fine furniture designed expressly for Resorts, Hotels, Time Shares and Restaurants. Our quality case goods and upholstery can be found in boutique to luxury properties large and small throughout the world.

Our obligation is to provide a quality product in craftsmanship and finishing, delivered on time.

We take our product development partnership seriously from the beginning of style definition all the way through to post sale follow-up. Providing day-to-day communication and addressing any and all questions along the way, ensuring details are addressed and schedules are adhered to. We also employ highly qualified Quality Control Engineers at our factories and in our US Operations office to ensure each piece of furniture is designed and manufactured to its highest quality as well as structurally stable.

At Indon, you get experience and knowledge in the hospitality furnishings industry. Our Executives, Project Managers and Operational staff have backgrounds in hospitality furniture manufacturing, design, engineering, sales, procurement and logistics. In addition, our factories in the U.S.A., Mexico and China each have a long standing history in producing hospitality furnishings. This experience is what makes Indon stand out and is what feeds our capabilities and attention to detail with your projects.

A project is not concluded until you are satisfied.

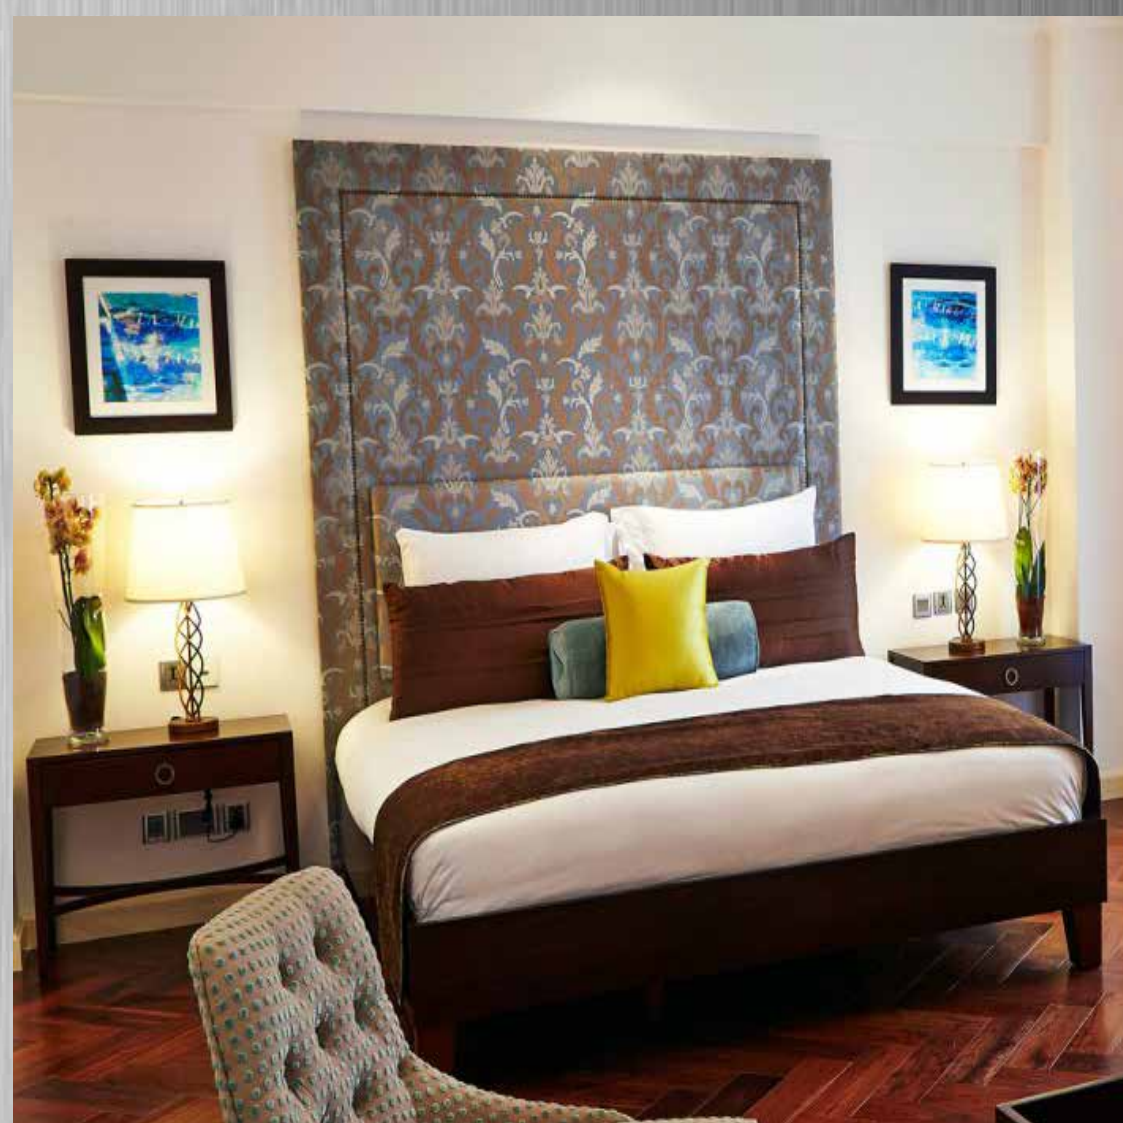

Your satisfaction is our goal, and because of that, Indon is proud to have over an 85% client retention!

We hope you enjoy viewing our installations on the following pages, and hope that this introduction provides insight into our capabilities and breadth of products.
